Applicant Information			
Agency Name:			
Contact Name:		Title:	
Email Address:		Phone Number:	
Project Description			
Project Name:			
Major Work Type:			Preferred Year of Funding:
Detailed Work Description			
What is the justification and/or	need for this project		

If you are submitting multiple applications, please rank your applications by priority. Rank: \_\_\_\_\_ of \_\_\_\_\_

#### **Proposed Budget**

	Amount	Percent of Total
Total Participating Construction Estimate	\$	100 %
CMAQ Requested	\$	%
CRP Requested	\$	%
CTF Match	\$	20%

Are you able to contribute local funding for the project if needed

If so, what is the maximum Amount:

Yes  $\Box$  No  $\Box$ 

Describe how this project will reduce emissions from on-road transportation sources (Reduction in vehicle trips, miles driven, idling, delay, etc.)

Which Emissions Toolkit is being used to estimate the emissions benefit:

Enter the emissions reduction from the toolkit - Note that a positive number indicates reduced emissions

	Volatile Organic			
	Compounds (VOC)	Carbon Monoxide (CO)	Nitrogen Oxide (NO <sub>x</sub> )	Particulate Matter (PM 2.5)
Ī				

#### Zero Emission Vehicles & Related Infrastructure Projects

Describe the current and future resources needed to meet costs for the transition and implementation of zeroemission vehicles and infrastructure.

Describe any skill gaps or training needs for existing workers to operate and maintain zero-emission vehicles or related infrastructure.

Has a licensed engineering design firm been contacted to assist with charging infrastructure	Yes 🗆 No 🗆
planning and installation.	

#### State of Good Repair

Is this project a replacement
Yes

If you answer yes

The item will meet the minimum age criteria for replace in the proposed year of funding

The item will exceed the minimum age criteria for replace by \_\_\_years

What is the expected useful life for the project:
If this is a vehicle replacement provide the following information (Link to vehicle inventory information)
Year of vehicle being replaced:
Wear of vehicle being replaced:
Vehicle ID Number:
Implementation

Project is capable of completion within 18-24 months

If yes indicate the milestones for the project

#### Do you have an implementation plan in place?

Yes  $\Box$  No  $\Box$ 

Yes 🗌 No 🗌

If yes, please provide a project timeline if you have it leading from procurement to completion of construction

If you need assistance, please contact Brandon Kovnat, SWMPC Transportation Planner Email <u>kovnatb@swmpc.org</u> or call (269) 925-1137 x 1524

### **Emissions Benefit**

Describe how this project will reduce emissions from on-road transportation sources (Reduction in vehicle trips, miles driven, idling, delay, etc.)

The addition of pathways will encourage pedestrians to make non-motorized trips between the Village of Stevensville and the Lincoln Township public facilites (Park, Library), Roosevelt Elementary School, and the commercial area of John Beers Rd. and Cleveland Ave. This will improve air quality and reduce congestion by reducing motorized vehicles, and their accompanying emissions from the roadway.

Which Emissions Toolkit is being used to estimate the emissions benefit: FHA CMAQ Toolkit

Enter the emissions reduction from the toolkit - Note that a positive number indicates reduced emissions

Volatile Organic Compounds (VOC)	Carbon Monoxide (CO)	Nitrogen Oxide (NO <sub>x</sub> )	Particulate Matter (PM 2.5)
0.018	0.316	0.018	0.001

#### Accessibility and Equity

CMAQ & CRP Application for the 2026-2029 Call for Projects

Yes No V

Yes 🗋 No 🗇

Besides emissions reductions what other performance measures will the project contribute to? (*select all that apply*) ⊠ Safety □ Pavement Condition □ System Reliability ☑ Pedestrian/Bicycle Connectivity

If you checked any of the Performance Measures please describe how the project will improve them

This area closes a critical gap between two existing federally funded non-motorized facilities; the sidewalks and widened shoulders on Marquette Woods Ave. and the 10 ft. wide paved trail on S. Roosevelt Rd. Walkers and cyclist are currently required to use the narrow or non-existent shoulders of S. Roosevelt Rd. They are also required to cross the existing bridge over Hickory Creek which has narrow shoulders and guardralls. A hilly vertical alignment limits site distance on the south end of this section, decreasing motorist's ability to react to pedestrians in the roadway, especially at the higher than posted speeds observed. In addition, this path would increase connectivity of the community. The path would connect the Village of Stevensville and the Lincoln Township public facilities (Park, Library, School).

## Strategic Planning & Investment

The project crosses jurisdictional boundaries.	Yes 🗌 No 🖪
The project will coordinate with other infrastructure projects (i.e. utility, water, sewer, etc.)	Yes 🖾 No 🖾
The project is identified in an asset management plan	Yes 🔲 No 🖪
There is an asset management plan covering utilities along the length of the project	Yes 🗖 No 🖪
The city/village/Township has adopted an asset management policy	Yes 🗖 No 🗹
The project supports goals or objectives from another planning document (ex. master plan or rec. plan)	Yes 🔽 No 🗖

If the project supports goals or objectives in another planning document please identify the plan, specify the relevant goals or objectives, and describe how this project will help achieve them

Lincoln Charter Township Master Plan and Rec Plan looks to improve the connectivity and quality of the pathway system in the township. This project would connect a previously disconnected area of the township to the existing pathway system, particularly connecting the north section of Roosevelt Road to the existing pathways.

#### **Risk Assessment**

CMAQ & CRP Application for the 2026-2029 Call for Projects

Page 2 of 4

Yes 🛛 No 🗆

Besides emissions reductions what other performance measures will the project contribute to? *(select all that apply)* Safety Pavement Condition System Reliability Pedestrian/Bicycle Connectivity

If you checked any of the Performance Measures please describe how the project will improve them

This project would close a gap between the commercial area at the intersection of St. Joseph Ave, Marquette Woods Rd, and Red Arroy Hwy. Currently the sidewalk that runs along St. Joseph Ave ends abrupity at the village limits. Walkers and cyclists are required to use the shoulders of St. Joseph Ave. The speed limit of 40 MPH along St. Joseph Ave poses an increased risk to pedestrians and cyclists looking to travel along the side of the road. This sidewalk would increase connectivity of the community, linking the Village of Stevensville to Lincoln Charter Township, particularly providing a pedestrian route connecting to the noted commercial area. Overall, the sidewalk would provide a safe route for any pedestrians and cyclists traveling along St. Joseph Ave.

## **Strategic Planning & Investment**

The project crosses jurisdictional boundaries.	Yes 🗌 No 🖪
The project will coordinate with other infrastructure projects (i.e. utility, water, sewer, etc.)	Yes 🗔 No 🗹

Yes No V

Does this project remove a priority ADA barrier, as identified in an adopted ADA Transition Plan or similar plan?

CMAQ & CRP Application for the 2026-2029 Call for Projects

Besides emissions reductions what other performance measures will the project contribute to? *(select all that apply)* Safety Pavement Condition System Reliability Pedestrian/Bicycle Connectivity

If you checked any of the Performance Measures please describe how the project will improve them

This project would close a gap between the commercial area of John Beers Rd. and Cleveland Ave to the neighborhoods along Washington Ave, as well as connect Lincoln Charter Township to St. Joseph Charter Township at Maiden Lane. Currently there is no sidewalk running along Washington Ave, so walkers and cyclist are required to use the narrow or non-existent shoulders of Washington Ave. The high speed limit of 50 MPH along Washington Ave poses an increased risk to pedestrians and cyclists looking to travel along the side of the road. This sidewalk would increase connectivity of the community, linking the Village of Stevensville to Lincoln Township and St. Joseph Charter Township, and would provide a safe route for any pedestrians and cyclists raveling along Washington Ave.

## Strategic Planning & Investment

The project crosses jurisdictional boundaries.	Yes 🗌 No 🖪
The project will coordinate with other infrastructure projects (i.e. utility, water, sewer, etc.)	Yes 🖾 No 🗹
The project is identified in an asset management plan	Yes 🔲 No 🖪
There is an asset management plan covering utilities along the length of the project	Yes 🗖 No 🖪
The city/village/Township has adopted an asset management policy	Yes 🗔 No 🗹
The project supports goals or objectives from another planning document (ex. master plan or rec plan)	Yes 🖾 No 🗖

If the project supports goals or objectives in another planning document please identify the plan, specify the relevant goals or objectives, and describe how this project will help achieve them

Lincoln Charter Township Master Plan and Rec Plan looks to improve the connectivity and quality of the pathway system in the township. This project would connect a previously disconnected area of the township to the existing pathway system, particularly connecting the north section of Roosevelt Road to the existing pathways.

#### **Risk Assessment**

N/A	
Describe approximately how many individual mature trees or acres of trees will	be removed if applicable
Are there historic elements within 100 feet of the proposed work*	Yes 🗌 No 🗹 Unknown 🗌
Is the project within 100 feet of a cemetery?	Yes 🗌 No 🗹 Unknown 🗌
Will there be trees removed within the project limits?	Yes 🗌 No 🗍 Unknown 🗹
Are the project limits within a defined FEMA floodplain?	Yes 🗌 No 🗹 Unknown 🗌
Does the project require utility relocation?	Yes 🗌 No 🗹 Unknown 🗌
Does the project intersect with a railroad crossing?	Yes 🗌 No 🗹 Unknown 🗌
Does right-of-way need to be acquired?	Yes 🗌 No 🗹 Unknown 🗌

\* Historic elements include any of the following if they are <u>50 years old or older</u>: objects (ex. Statues or monuments), structures (ex. bridges, stone curbs, or brick streets), intentional/designed landscapes, buildings, Historic districts, intentional/designed landscapes

Activity	Date (Month/Year)
NEPA/SHPPO Submitted	11/2026
Right-of-Way Certification Submitted	1/2027
Grade Inspection (GI) Completed	2/2027
Full Biddable Package Submitted to MDOT	4/2027
Project Letting	6/2027
Construction Start	7/2027
Project Completion	11/2027

## **Applicant Acknowledgements**

By signing below, the project sponsor ensures that they have read and understood the appropriate federal guidance and agree to follow all applicable federal regulations and requirements from the acceptance of federal funds, should this project receive an award. In addition, the project sponsor acknowledges the potential loss of federal funds if the project is not obligated within the programmed fiscal year or if Michigan Department of Transportation statewide obligation limitations have been met.

## **Certification of Matching Funds**

By signing below, the Project Sponsor assures that sufficient funds are available to pay any costs above the awarded federal fund amount and that completion of this project is not contingent upon additional grants. The sources of matching funds may be changed after funding has been awarded, in accordance with the established amendment guidelines.

## 2026-2029 Transit Project Application Congestion Mitigation and Air Quality Improvement Carbon Reduction Program

If you need assistance, please contact Brandon Kovnat, SWMPC Transportation Planner Email <u>kovnatb@swmpc.org</u> or call (269) 925-1137 x 1524

Applicant Information			
Agency Name:			
Contact Name:		Title:	
Email Address:		Phone Number:	
Project Description			
Project Name:			
Major Work Type:			Preferred Year of Funding:
Detailed Work Description			
What is the justification and/or	need for this project		
,			

If you are submitting multiple applications, please rank your applications by priority. Rank: \_\_\_\_\_ of \_\_\_\_\_

## **Proposed Budget**

	Amount	Percent of Total
Total Participating Construction Estimate	\$	100 %
CMAQ Requested	\$	%
CRP Requested	\$	%
CTF Match	\$	0%

Are you able to contribute local funding for the project if needed

If so, what is the maximum Amount:

Yes  $\Box$  No  $\Box$ 

\$\_\_\_\_\_

#### **Emissions Benefit**

Describe how this project will reduce emissions from on-road transportation sources (Reduction in vehicle trips, miles driven, idling, delay, etc.)

Which Emissions Toolkit is being used to estimate the emissions benefit:

Enter the emissions reduction from the toolkit - Note that a positive number indicates reduced emissions

	Volatile Organic			
	Compounds (VOC)	Carbon Monoxide (CO)	Nitrogen Oxide (NO <sub>x</sub> )	Particulate Matter (PM 2.5)
Ī				

#### Zero Emission Vehicles & Related Infrastructure Projects

Describe the current and future resources needed to meet costs for the transition and implementation of zeroemission vehicles and infrastructure.

Describe any skill gaps or training needs for existing workers to operate and maintain zero-emission vehicles or related infrastructure.

Describe any partnership the applicant has with the utility or alternative fuel provider.

Has a licensed engineering design firm been contacted to assist with charging infrastructure	Yes 🗆 No 🗆
planning and installation.	

## State of Good Repair

Is this project a replacement
Yes 

If you answer yes
The item will meet the minimum age criteria for replace in the proposed year of funding

The item will exceed the minimum age criteria for replace by \_\_years

What is the expected useful life for the project:
If this is a vehicle replacement provide the following information (Link to vehicle inventory information)
Year of vehicle being replaced:
Vehicle ID Number:
Vehicle ID Number:
Project is capable of completion within 18-24 months
Yes 
No

Do you have an implementation plan in place?

If yes indicate the milestones for the project

Yes 🗆 No 🗆

If yes, please provide a project timeline if you have it leading from procurement to completion of construction
